

Welcome to the New Canaan High School Psychologist Website!

What do School Psychologists do at the high school? We are available to consult with students, parents and faculty on issues regarding all aspects of learning. We are part of the support staff that evaluates information to clarify problems and arrive at an intervention plan. The scope of our job includes working on collaborative teams such as Student Support Teams, Planning and Placement Teams, or 504 Accommodation teams, as well as meeting individually with students. Our area of expertise includes helping adolescents and their families successfully deal with challenges academically, socially and emotionally. We can be reached via phone, email or in person and are located in the Counseling Suite.

Your School Psychologists,

Maria Calcagni **203-594-4654** **maria.calcagni@ncps-k12.org**

Sandra Warkentin **203-594-4656** **sandra.warkentin@ncps-k12.org**
